Preparing the Machine

Gas Models Only

1. Park the machine on a level surface.
2. Disengage the blade-control switch.
3. Move the motion-control levers outward to the PARK position.
4. If equipped, engage the parking brake.
5. Shut off the machine and remove the key.
6. Wait for all moving parts to stop.
7. Allow machine components to cool.

Electric Models Only

1. Park the machine on a level surface.
2. Disengage the blade-control switch.
3. Move the motion-control levers outward to the NEUTRAL position.
4. Engage the parking brake.
5. Shut off the machine and remove the key.
6. Wait for all moving parts to stop.
7. Allow machine components to cool.
8. Remove the battery packs from the machine.

Installing the LED Light Kit

Note: For installation assistance, contact an Authorized Service Dealer.

1. Install the light bracket onto the front of the machine using the 2 hex-washer-head thread forming screws (5/16 x 3/4 inch).
