Subject: Auxiliary Valve Kit for positioning an Accessory.

Auxiliary Valve Kit (93-3169) for hydraulic powered Accessories can be installed on all Groundsmaster 300 series products. This kit includes a single spool valve with integral load check valves and centering springs (open center) and can be used with double acting cylinders or bi-directional motors. The Kit includes mounting hardware, hoses, quick-connect hydraulic fittings, and installation instructions. The quick-connect fittings are mounted below the right frame rail in front of the lift cylinder.

This kit is appropriate for most hydraulic positioning applications found on many brooms or blades. The maximum hydraulic pressure and flow capability is limited to 800 psi at 4 gpm. The two hose connections are female 3/8" O-ring boss fittings (9/16-18 UNF).

NOTE:

This kit is designed for intermittent operating applications only. **DO NOT** use for continuous duty applications.
