Workman[®] 3200 and 3300-D

<u>Model/Serial Range:</u>	<u>Model Number:</u>	<u>Serial Numbers:</u>
	07200	00000-99999
	07205	00000-99999

Subject: Availability of protective Engine Cover.

When hauling loose material (e.g. Sand, Fertilizer, etc.) on a Workman 3200 and 3300-D equipped with a 2/3 Flatbed or Topdresser attachment, the material can overflow directly onto the engine if it is loaded higher than the sides of the cargo box. This spilled material may cause failure to the engine or externally mounted components.

An Engine Cover Kit is now available for the Workman 3200 (07200) and Workman 3300-D (07205). The cover mounts directly over the engine and will protect major external components from debris buildup. Parts listed below are available through your local Toro distributor.

Engine Cover Kit (92-1344) is for Workman 3200 - Model 07200

Engine Cover Kit (92-5963) is for Workman 3300D - Model 07205
