Subject: Incorrect Engine Service Part Numbers.

Some of the engine service part numbers in the parts books of the above listed products were incorrect. The chart (attached) indicates the Old parts involved and the corrected New part numbers.

Also, the following part numbers must be used on engines with **engine serial number** before **04090100** :

99-9092 Adjuster Rocker arm
99-9094 Cap-Valve
99-9103 Rod-Push

The following must be used on engines with **engine serial numbers** after **04083100**:

112-2978 Adjuster Arm, Rocker
112-2979 Cap-Valve
112-2980 Rod-Push

This information applies to both LCG and LCD engines. The engine serial numbers listed above were installed in 2005 or higher vehicles. Unfortunately, engines are not installed sequentially so it is difficult to specify exact vehicle serial ranges for these 3 part number exceptions.

This chart applies to the Liquid Cooled Gasoline (LCG) engine

TORO PART NUMBER (OLD)	TORO PART NUMBER (NEW)	DESCRIPTION
99-9111	99-9004	SCREW (INTAKE MANIFOLD)
99-9008	99-9060	PLUG-WELCH
99-9060	99-9008	PLUG-WELCH
99-9656	99-9641	GEAR- CAM DRIVE
99-9113	99-9114	SCREW (OIL PUMP)
99-9114	99-9113	SCREW (OIL PAN)

This chart applies to the Liquid Cooled Diesel (LCD) engine

TORO PART NUMBER (OLD)	TORO PART NUMBER (NEW)	DESCRIPTION
99-9658	99-9165	HOUSING-OUTLET
