3

Installing the Seat Belt

Parts needed for this procedure:

1	Seat Belt Kit
---	---------------

Procedure

⚠ WARNING

Serious injury or death can happen when the seat belt is used without a roll bar installed.

Do not install the seat belt without a roll bar installed.

If you do not have a rollbar, contact an Authorized Service dealer to obtain the correct Roll Over Protection System (ROPS).

⚠ WARNING

To avoid injury or death from rollover: keep the roll bar in the raised locked position and use the seat belt.

Ensure that the rear part of the seat is secured with the seat latch.

Install the seat belt kit retractor and receiver to the deluxe seat using the 2 bolts (7/16 x 1 inch) (Figure 5).

Torque the bolts to 55 ft.-lb. (74.6 N-m).

4

Installing the Seat (Domestic and Australian Mowers)

Parts needed for this procedure:

1	Deluxe suspension seat
4	Flange nut (5/16 inch)
4	Plastic ties

Procedure

1. Remove the plastic packing covers guarding the seat studs. Do not remove the spacers on the seat studs.
2. Position the new seat into the seat mounting frame (Figure 6).
3. Secure the seat to the seat frame with 4 flange nuts (5/16 inch) (Figure 6).

Torque the nuts to 20 ft.-lb. (29.8 N-m).

5

Installing the Seat (International Mowers)

Parts needed for this procedure:

1	Deluxe suspension seat
4	Flange nut (5/16 inch)
4	Flange nut (3/8 inch) (International mowers only)
4	Plastic ties

- 4. Plug the harness connector into the seat switch located under the seat (Figure 7).

Figure 7

- 5. Move seat to the furthest rear position. Use the plastic ties to attach the wire harness to seat (Figure 7).
- 6. Carefully lower the seat down and ensure the harness does not get pinched. If it does, reposition the plastic ties.

Procedure

- 1. Remove the plastic packing covers guarding the seat studs. Do not remove the spacers on the seat studs.
- 2. Secure the seat plate to the seat with 4 flange nuts (5/16 inch) (Figure 8)

Torque the nuts to 22.5 ft.-lb. (30.5 N-m).

Figure 8

- 2. Seat plate
- 3. Flange nut (5/16 inch)

- 3. Position the new seat into the seat mounting frame (Figure 9).
- 4. Plug the harness connector into the seat switch located under the seat towards the front.
- 5. Carefully lower the seat down and ensure the harness does not get pinched.
- 6. Install the seat to the machine frame with 4 flange nuts (3/8 inch) (Figure 9).

Torque the nuts to 35 ft.-lb. (47.5 N-m).

6

Installing the Decal

Parts needed for this procedure:

1	Decal
---	-------

Procedure

Remove the backing off the decal and place the decal on the back of the seat as shown in Figure 11.

Figure 9

1. Harness connector 2. Flange nuts (3/8 inch)

-
7. Install the hydraulic unit shroud to the machine (Figure 10).

Figure 10

1. Hydraulic unit shroud 2. Bolts

-
8. Move seat to the furthest rear position. Use the plastic ties to attach the wire harness to the seat.
9. Carefully lower the seat down and ensure the harness does not get pinched. If it does, reposition the plastic ties.

Operation

Positioning the Seat

Changing the Seat Position

The seat can move forward and backward. Position the seat where you have the best control of the machine and are most comfortable.

1. To adjust, push the lever downward to unlock seat (Figure 12).
2. Slide the seat to the desired position and release lever to lock in position.

Changing the Seat Suspension

The seat can be adjusted to provide a smooth and comfortable ride. Position the seat where you are most comfortable.

To adjust it, turn the knob in front either direction to provide the best comfort (Figure 12).

Changing the Armrest Position

The armrests can be adjusted to provide a comfortable ride. Position the armrests where you are most comfortable.

To adjust it, raise the armrest and turn the knob in either direction to provide the best comfort (Figure 12).

Changing the Back Position

The back of the seat can be adjusted to provide a comfortable ride. Position the back of the seat where it is most comfortable.

To adjust it, turn the knob, under the right-side arm rest, in either direction to provide the best comfort (Figure 12).
