

MODEL NO. 04487

## INSTALLATION INSTRUCTIONS

### WIDE WIEHLE ROLLER KIT (For Greensmaster® 3200)

1. Remove (2) shoulder bolts securing traction unit pull frame to cutting unit (Fig. 1).

Figure 1

- |                   |                           |
|-------------------|---------------------------|
| 1. Pull frame     | 4. Capscrew               |
| 2. Shoulder bolt  | 5. Capscrews and locknuts |
| 3. Roller bracket |                           |

2. Loosen (2) capscrews securing ends of roller shaft to roller brackets (Fig. 1).
3. Remove (2) capscrews and locknuts securing left front roller bracket to side plate (Fig. 1).

**Note:** The right roller bracket has an eccentric bolt for leveling roller to bedknife.

4. Remove existing roller.
5. Insert new roller into roller brackets (Fig. 2).
