Models:

Serial Numbers:

02600	312000001-313009999
02602	312000001-313009999
02603	312000001-313009999
02604	312000001-313009999
02606	312000001-313009999
02609	312000001-313009999
02611	312000001-313009999
02610	314000001-314009999
02615	314000001-314009999

Situation:

High Idle Engine Speed Specifications for the Hover Pro line of products.

The models listed above have no published engine speed references in other documentation developed by the engine vendor or by Toro. The high idle engine speed is critical to the performance of the Hover Pro mower. The chart below is the technical reference for maintaining factory specification engine speed high idle settings.

Model	Description	High Idle Specification
02600 02615	HOVERPRO 400	4800 ±100
02602	HOVERPRO 450	3400 +0 / -150
02603	HOVERPRO 450	3400 +0 / -150
02604	HOVERPRO 500	3100 +0 / -150
02606	HOVERPRO 550	3100 +0 / -150
02609	HOVERPRO 450	3700 +0 / -150
02611	HOVERPRO 550	3700 +0 / -150
02615	HOVERPRO 400	4800 ±100
02610	HOVERPRO 450	3400 +0 / -150

Please use this chart as reference to maintain your Hover Pro product.
